Moshood,

Beyond the schedules that we will discuss at the meeting, do you have any other comments on the document?

Thanks,

Bill

Bryan:

I completed the review of the Yorktown Draft SMP for 2016-2017 . Please note that EPA does not have the resources to commit to the level of work the Navy plans to accomplish next fiscal year. Based on the table below (redacted from the Draft SMP), the Navy plans to send an average of 5 documents for regulatory review each month in FY16 ( includes Drafts and Draft Finals). Given our limited internal technical resources, my suggestion is that the Navy revise the SMP to include, at a maximum, one primary document ( e.g. Draft RIs, LTMs, RDs, SAP ..etc) and 1 secondary document (e.g. Draft Finals, Tech Memo,...etc) for EPA review each month.

We can further discuss this during our next partnering meeting, but please feel free to call me before then if you have any questions.

Moshood.

**Subject:** Draft SMP 2016-2017

Moshood and Wade,

As discussed during partnering, attached is the electronic deliverable of the draft SMP for 2016-2017. This is one of four e-mails that contain the entire document. We have produced the red-line Word version and then put tables, figures and schedules into .pdf format; those will come as separate e-mails as the file sizes are large. For completing your files, I have included the cover letter for the document.

Please provide your comments on the document by August 10, 2015. Please let me know if you have any questions.

Thanks,

Bill
